

This transcription was completed on March 27, 2023 with the application MacWhisper on macOS. This was done automatically, without human input during the transcription process. The application uses OpenAI's "Whisper" model. This produces the transcription as a plain text file, hence the block of text.

My hope is that by offering this transcription – however accurate it may be done by a machine learning/ AI – will help you, the listener. I'd love to offer full, proper transcription some day, but that is not feasible at this time. Thank you for listening and reading. I hope you enjoy the show and that this document was helpful. Enjoy.
